

WORKPLACE WELLNESS

What if AI
understood your
team's mental
health **better**
than any
meeting?

THE REALITY

**Thousands of
surveys sent.
Nobody reads
them.**

Most end up in a spreadsheet. Unread. Unanalyzed.
Useless. The data was there — nobody looked.

THE SOLUTION

A-Survey doesn't just collect. It understands.

An AI-powered platform that reads every answer, detects risk, and tells you who needs help.

HOW IT WORKS

Five steps. One platform.

AI DETECTION

Behind every "I'm fine" — AI sees more.

Sentiment detection

Risk level classification

Patterns humans miss

Low

Moderate

High

Critical

WHAT HAPPENS NEXT

High-risk doesn't sit in a folder.

Flagged responses trigger a full case management workflow.

 Action plans with scheduling

 Confidential case notes

 Pattern tracking over time

 Status tracking to resolution

BUILT FOR TRUST

Automatic PII anonymization.

Real insights without exposing anyone. Employee data is detected and anonymized before analysis begins.

// PRIVACY BY DESIGN

Privacy isn't an afterthought. It's the foundation.

From survey to insight to **action.**

One platform.
